---

# 1. Public financing

- The Green bond of 26/02
- The European pact for stability and growth
- Financing the energy renovation of public buildings

## 2. Reinforcing the financial system's resilience to climate-related risks

- Accord 22/03 to adhere the recommendations of the TCFD
- Financial organisations: disclosure climate risks + opportunities
- Measuring of risks and opportunities  
?

### 3. Channelling private money towards the financing of transition

- Impact of the action plan in BE
- Bank credit
- Household saving rate

*Need for a stable regulatory  
framework !*

## 4. Further transparency for investors

- Different methodologies and labels
- Reliability ?

## 5. Extending the investors' time horizon

- Study NBB
- Carbon pricing

# EU legislative package 24/05

Further work of the FRDO-CFDD:

- Taxonomy for green financial products
- Pensions money

***Thank you for your attention !***
